

### CPU Utilization

Your Application **74%**  
Garbage Collection **5.7%**  
Idle **17%**

### Thread Pools

Active **6.9**  
Inactive **6.5**

### Java Heap

Consumed **616MB**  
Available **185MB**

## Top Bottleneck

1

**FriendlySelectionServiceImpl.resolve**

Data Access: Read-only Queries

Lock Contention in

PageInstancePersister.getOIDsOfChildrenByMetaData

Security

SQLServer Driver Overhead

This Code is Active in **53%** of Samples  
On Average, **7.6** Threads Execute Concurrently

2

**DBHandler**

Data Access: Read-only Queries

Data Access: Transaction Commmits

Lock Contention in  
userOnThreadChanged

SQLServer Driver Overhead

This Code is Active in **33%** of Samples  
On Average, **12** Threads Execute Concurrently
